# Harrodsburg Architectural Preservation Commission SIGN WORKSHEET 

## All Signs:

Name on the Sign: $\qquad$
Proposed Sign Materials: $\qquad$
Will the sign be a lighted sign? $\qquad$ Yes $\qquad$ No If yes, please describe the lighting you propose:

- Enclose a photograph of your building: marking the area the sign will be located.
- A sketch of the proposed sign must accompany the application.

## Exterior Permanent Signs:

Signs should not exceed one (1) square foot of sign area per linear foot of the building width nor in any case be larger than a maximum of thirty-two (32) square-feet in area*.

Measure the linear feet of your building $\qquad$
Proposed Dimension of the sign $\qquad$
*Buildings that have more than 32 linear feet of building frontage along the street to which the sign is oriented - applicant may request approval for one (1) additional square foot of sign area per each linear foot over 32 feet.

Permanent Signs applied on or in the windows:
Permanent signs in or on window surfaces should not exceed twenty (20) percent of the total window area.

1) Measure your window surface $\qquad$ $x$ $\qquad$ $=$ $\qquad$ total square foot (s.f.) of window area. $\quad$ height x width $=$ total $\mathrm{s} . f$. of window area.
2) Divide total s.f. of window area by five. This is the maximum s.f. allowed for the sign.
3) Proposed dimension of sign: $\qquad$ x $\qquad$ $=$ $\qquad$
height x width $=$ total sf of sign (cannot exceed \#2)
